

**DIGBY**<sup>®</sup>  
FINE ENGLISH

# MEET THE FOUNDERS

### **Our Lightning Bolt Moment**

The idea for Digby Fine English was born on the driveway of a sparkling winery south of Seattle, Washington, in the US., surrounded by sweeping rows of vines on the way up to a glittering winery visitor centre. If English sparkling wine was as good as the critics say, how come we had never even been offered a glass to try, all the times we had eaten out at home in London? Sure enough, when we got back and greedily tried our first several bottles of English fizz, some were beyond good, but none confidently expressed their English identity and intrinsic quality to the world. The spark was well and truly lit.

### **Our Vision**

From the very start, we knew that English fizz deserved worldwide acclaim, and our goal is to bring this inimitably English form of sippable luxury to discerning, adventurous customers in all of the world's coolest cities.

TREVOR, DERMOT & JASON

### **Trevor: Our Head Blender**

Trevor's favourite spot to stand all year is next to the press in October, ready to taste fresh English Chardonnay juice from our chalky vineyard partners. Will he declare it a vintage year? Digby's house style is the result of his vision and collaboration with our winemaking supremo, Dermot Sugrue.

### **Jason: Our Scientist**

Jason's enthusiasm for a beautiful glass of English fizz goes right back to the vineyard where he works closely with our collection of vineyard partners whose shared passion for excellence results in some of the best quality Chardonnay, Pinot Noir and Pinot Meunier grapes for fizz production in the world.
